PROFILE

I'm Azizul Hakim Rony, a front-end developer. I'm enjoying to create things that live on the internet, whatever they are websites, applications, or anything in between. I'm highly proficient in HTML, CSS but have built some other projects with JavaScript. I'm currently working on improving my JavaScript skills by building various projects to enhance my abilities.

PROJECTS

Ema-jhon

Overview:

- Online shopping website
- Single page application
- User can add/delete products
